ABOUT COMPANY

MAA PANEL(INDIA) PVT LTD is an ISO 9001:2015 & 14001:2015 certified company which was established under the registered guidelines. "MAA GROUP" was set up in 2001, not only gaining the biggest turnover but also covering successful business segments in manufacturing & marketing. MAPL ALU PANEL manufacturing plant is located at Himatnagar District Sabarkantha, Gujarat, 70 km away from Ahmedabad highway towards Udaipur.

MAPL has set up ultra-modern German technology aluminium composite panel production line infrastructure which is handled by a talented team of professionals. Our management has adopted rigorous quality control norms and incorporated the highest level of quality control that produces zero defective products. MAPL manufactures Aluminum composite materials that include the modern building cladding material which is used for external facades. Due measures are taken not only to ensure premium quality but also to maintain international standards right from raw materials to finished products.

MAPL is proud of its Pan-India Presence through Depo, C&F Agent, Distributors or Stock Point. We are just a call away no matter where your project & location stand. Our major coverage includes Western Zone, Southern Zone, Northern Zone, and Eastern Zone.

MAPL ALU PANEL was formed to serve more specialist market that helps the demanding market environment. Our major strength lies in the development & production of quality specialist industrial and commercial laminated panels to suit individual requirements.
